[u9nTPddwb2xnVbtFgBif30o/edit](#) will be sent out , members to have a look at these questions and review / add feedback by end of April. To be send out early June

— Need to assign an owner for these actions.

1. Look at results and create 101 level content on the top issues
2. Take a pragmatic approach to the content - testimonials, how-to's, etc.
3. Get feedback from the China tech talk on the subject
4. **Look at face-to-face event enablement and discussion area - onboarding at the event (stand at EclipseCon):**
 - a. We are working on booking some time slots from the Office Hours station at EclipseCon to accommodate this

Suggestions from Steering Committee:

1. Marcin suggested leveraging JUGs reaching out to membership
2. Repeating at Livestream would be beneficial
3. Abraham wonders if an alternative contribution mechanism could be created (other than community mailing list) - how does one make "one suggestion" - for example, create a "contact us" form that posts email to community alias

Notes:

- Is the effort to put the suggestion form in place more than the return would be?
- Perhaps if we don't over-engineer it, it might help get some input that we would not get in other ways. Perhaps an email form.

2023 - Events

- JConf
- JPrime
- JNation sponsorship (June 6-7)
- DevBCN
- Hackathon by Payara
